

## “Safe Word” for Preschool Pick-Up

To aid with safety and pickup at the preschool camp, families are asked to pick a “safe word” for their child. This word will be linked to your account, and must be known to every person who is picking up your child. The word does not need to be said every day at pickup, but should be used by anyone who is not your child’s parent or guardian. The word can be of any length or language.
